RE: Simon Weiser financial services – October 2015 to March 2016

Simon Weiser has requested a follow-up letter regarding his services in identifying and recovering financial assets seized by the State of New York for inactivity. Mr. Weiser assisted my family in securing assets, the existence of which had been unknown to me, until Simon called. All documentation was completed and a check was in my hands within 5-6 months. I believe Mr. Weiser's fees were reasonable for the results that were obtained.

The previous paragraph is adequate representation of Mr. Weiser's qualifications. The type of work in which Simon engages is unusual, so I have chosen to include some additional information concerning Mr. Weiser's services. At first, I assumed the proposition of inherited wealth was a fictitious ruse similar to the "Nigerian Minister" scams on the Internet. Through patience and perseverance, Mr. Weiser managed to convince me that all was on the up-and-up. Also, I believe he assisted my family in securing the legal representation necessary to establish an escrow account and facilitate the resolution of the tax implications of this inheritance "from the past".

If you have any questions regarding this letter, please call me at (509) 308-5787.

Yours professionally,

Robert Lowy, President (retired)
